# Trade name: einzA Isolierweiß Spray, weiß Product no.: 0079548

Current version : 3.0.0, issued: 11.11.2024

Region: GB

SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Trade name

### einzA Isolierweiß Spray, weiß

1.2 Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture primer

Uses advised against No data available.

#### 1.3 Details of the supplier of the safety data sheet

Address einzA Farben GmbH & Co KG Junkersstraße 13 30179 Hannover Telephone no. +49 (0)511 67490-0 Fax no. +49 (0)511 67490-20 e-mail info@einzA.com Advice on Safety Data Sheet

### 1.4 Emergency telephone number

sdb\_info@umco.de

For medical advice (in German and English): +49 (0)551 192 40 (Giftinformationszentrum Nord)

#### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

#### Classification in accordance with Regulation (EC) No 1272/2008 (CLP)

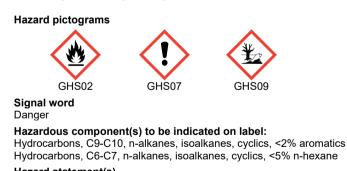

Aerosol 1; H222 Aquatic Chronic 2; H411 Asp. Tox. 1; H304 Skin Irrit. 2; H315 STOT SE 3; H336

#### **Classification information**

This product is assessed and classified using the methods and criteria below referred to in Article 9 of Regulation (EC) n° 1272/2008: Physical hazards: determined through assessment data based on the methods or standards referred to in part 2 of Annex I to CLP Health hazards and environmental hazards: determined through toxicological and ecotoxicological assessment data based on the methods or standards referred to in Part 3, 4 and 5 of Annex I to CLP.

#### 2.2 Label elements

#### Labelling according to Regulation (EC) No 1272/2008 (CLP Regulation)

Hazard statement(s)	
H222	Extremely flammable aerosol.
H229	Pressurised container: May burst if heated.
H315	Causes skin irritation.
H336	May cause drowsiness or dizziness.
H411	Toxic to aquatic life with long lasting effects.
Precautionary statement(s)	
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P103	Read carefully and follow all instructions.

#### P -4 0070540 ....

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

#### General information

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious place in recovery position and seek medical advice.

#### After inhalation

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration.

#### After skin contact

Remove contaminated clothing. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.

### After eye contact

Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.

#### After ingestion

If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

## 4.2 Most important symptoms and effects, both acute and delayed

No data available.

#### **4.3 Indication of any immediate medical attention and special treatment needed** No data available.

### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing media

Alcohol resistant foam, CO2, powders, water spray **Unsuitable extinguishing media** water jet.

#### 5.2 Special hazards arising from the substance or mixture

In the event of fire, the following can be released: Carbon monoxide (CO); Carbon dioxide (CO2); Toxic pyrolysis products; Exposure to decomposition products may cause a health hazard.

#### 5.3 Advice for firefighters

Cool closed containers exposed to fire with water. Do not allow run-off from fire fighting to enter drains or water courses. Appropriate breathing apparatus may be required.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

Exclude sources of ignition and ventilate the area. Do not inhale vapours/aerosols. Refer to protective measures listed in sections 7 and 8.

#### For emergency responders

### Product no.: 0079548

Current version : 3.0.0. issued: 11.11.2024

Replaced version: 2.0.0, issued: 12.09.2024

No data available. Personal protective equipment (PPE) - see Section 8.

#### 6.2 Environmental precautions

Is not allowed to be released into the sewerage or water courses. If the product contaminates lakes, rivers or sewage, inform appropriate authorities in accordance with local regulations.

#### 6.3 Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13). Clean preferably with a detergent - avoid use of solvents.

### 6.4 Reference to other sections

No data available.

### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

#### Advice on safe handling

The product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Operators should wear anti-static footwear and clothing and floors should be of the conducting type. Do not breathe steams or mist of the product. For personal protection see section 8. Avoid eye, skin and clothing contact.

#### General protective and hygiene measures

Avoid skin and eye contact. Do not eat or drink during work - no smoking. Wash hands before breaks and after work. Clean skin thoroughly after work; apply skin cream.

#### Advice on protection against fire and explosion

Isolate from sources of heat, sparks and open flame. No sparking tools should be used. Electrical equipment should be protected to the appropriate standard.

### 7.2 Conditions for safe storage, including any incompatibilities

#### Technical measures and storage conditions

Comply with legal health and safety regulations; Prevent unauthorised access. Keep container tightly closed and dry in a cool, well-ventilated place. Protect from heat and direct sunlight. Keep away from sources of ignition. No smoking.

#### Requirements for storage rooms and vessels

Keep the product in the original packing. Keep container tightly closed. Observe label precautions. Official regulations ruling storage of aerosols must be observed.

#### Incompatible products

Store away from oxidising agents, from strongly alkaline and strongly acid materials.

#### 7.3 Specific end use(s)

No data available.

### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

### Occupational exposure limit values

### 8.2 Exposure controls

#### Appropriate engineering controls

Provide good ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

#### Personal protective equipment

#### Respiratory protection

If workers are exposed to concentrations above the exposure limit they must use appropriate, certified respirators. Short term: filter apparatus, Filter A

#### Eye / face protection

Safety glasses with side protection shield (EN 166)

#### Hand protection

Sufficient protection is given wearing suitable protective gloves checked according to i.e. EN 374, in the event of risk of skin contact with the product. Before use, the protective gloves should be tested in any case for its specific work-station suitability (i.e. mechanical resistance, product compatibility and antistatic properties). Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves. Protective gloves shall be replaced immediately when physically damaged or worn. Design operations thus to avoid permanent use of protective gloves.

#### Other

Personnel should wear anti-static clothing made of natural fibre or of high temperature resistant synthetic fibre.

#### **Environmental exposure controls**

No data available.

### **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

State of aggregation			
liquid			
Form			
Aerosol			
Colour

#### 10.1 Reactivity

Stable under recommended storage and handling conditions (See section 7).

#### 10.2 **Chemical stability**

Stable under recommended storage and handling conditions (See section 7). 10.3 Possibility of hazardous reactions

## Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

10.4 Conditions to avoid

Heat, naked flames and other ignition sources.

#### 10.5 Incompatible materials

Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

rent version : 3.0.0, issued: 11.11.2024	Replaced version: 2.0.0, issued:	
Type of examination	in vitro gene mutation study in mamma	lian cells
Species	Chinese hamster Ovary (CHO)	
Method	OECD 476	
Source	ECHA	
Evaluation/classification	Based on available data, the classificat	ion criteria are not met.
3 isobutane	75-28-5	200-857-2
Type of examination	in vitro gene mutation study in bacteria	
Species	Salmonella typh. TA98, TA100, TA1535	
Method	Value taken from the literature	,,,
Source	ECHA	
Evaluation/classification	Based on available data, the classificat	ion criteria are not met.
4 cyclohexane	110-82-7	203-806-2
Type of examination	in vitro gene mutation study in bacteria	
Species	S. typhimurium TA 1535, TA 1537, TA 9	
Method	OECD 471	
Source	ECHA	
Evaluation/classification	Based on available data, the classificat	ion criteria are not met.
Reproduction toxicity		
No Substance name	CAS no.	EC no.
1 butane	106-97-8	203-448-7
Route of exposure	inhalational	
Species	rat	
Method	OECD 422	
Source	ECHA	
Evaluation/classification	Based on available data, the classificat	ion criteria are not met.
2 dimethyl ether	115-10-6	204-065-8
Route of exposure	inhalational	
Type of examination	Repeated Dose Inhalation Toxicity	
Species	rat	
Method	OECD 452	
Source	ECHA	
Evaluation/classification	Based on available data, the classificat	ion criteria are not met.
Route of exposure	inhalational	
NOAEL	4000	0 ppm
Type of examination	Prenatal Developmental Toxicity Study	γγ
Species	rat	
Method	OECD 414	
Source	ECHA	
Evaluation/classification	Based on available data, the classificat	ion criteria are not met
3 propane	74-98-6	200-827-9
Route of exposure	inhalational	200-021-5
NOAEC	1200	0

2	Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane	64742-49-0	921-02	4-6 75
3	n-hexane	110-54-3	203-77	7-6 75
Dire	ective 2012/18/EU on the control of major-accident hazards in	volving danger	ous substances	
	s product is subject to Part I of Annex I, risk category:	·		E2, P3a
	e properties of the substance/product give rise to more than one c	lassification, for t	he purposes of 2	
	lifying quantities set out in Part 1 and Part 2 of Annex I shall apply			
	ective 2010/75/EU on industrial emissions (integrated pollution	n prevention and	d control)	

Product no.: 0079548

Current version : 3.0.0, issued: 11.11.2024

Region: GB

#### National regulations

#### Other national regulations

Adhere to national regulations for proper handling and use of hazardous materials. Use appropriate personal protective equipment.

#### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for this mixture.

#### **SECTION 16: Other information**

#### Sources of key data used to compile the data sheet:

Regulation (EC) No 1907/2006 (REACH), 1272/2008 (CLP) as amended in each case.

- The data sources used to determine physical, toxic and ecotoxic data, are indicated directly in the corresponding section.
- Directives 2000/39/EC, 2006/15/EC, 2009/161/EU, (EU) 2017/164.

National Threshold Limit Values of the corresponding countries as amended in each case.

Transport regulations according to ADR, RID, IMDG, IATA as amended in each case.

# Full text of the H- and EUH- phrases drawn up in sections 2 and 3 (provided not already drawn up in these sections)EUH066Repeated exposure may cause skin dryness or cracking.

H220	Extremely flammable gas.
H225	Highly flammable liquid and vapour.
H226	Flammable liquid and vapour.
H280	Contains gas under pressure; may explode if heated.
H304	May be fatal if swallowed and enters airways.
H361f	Suspected of damaging fertility.
H373	May cause damage to organs through prolonged or repeated exposure
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
Notes relating to the	identification, classification and labelling of substances and mixtures ((EC) No 1272/2008, Annex VI)
С	Some organic substances may be marketed either in a specific isomeric form or as a mixture of several isomers. In this case the supplier must state on the label whether the substance is a specific isomer or a mixture of isomers.
P	several isomers. In this case the supplier must state on the label whether the substance is a specific

physical state in which the gas is packaged and therefore has to be assigned case by case.

#### Creation of the safety data sheet
